Fairy Tales Activity Book is a new work, first published by Dover Publications, Inc., in 2004.

International Standard Book Number: 0-486-43854-6

Manufactured in the United States of America
Dover Publications, Inc., 31 East 2nd Street, Mineola, N.Y. 11501

Note

Everyone loves fairy tales, from Cinderella and Goldilocks to Little Red Riding Hood and Rapunzel. In this little book, you will find fairy tale puzzles of all sorts, such as crosswords, connect-the-dots, mazes, codes, find the differences, and word searches. Make sure to have a pencil ready, as well as crayons, colored pencils, or markers. After you finish a puzzle, you can check your work in the Solutions section, which begins on page 52 (the puzzles on pages 17, 21, 23, 27, and 44 do not have answers). To enjoy this book even more, you can color in the puzzle pages. Have fun in the magical world of fairy tales!

The wicked queen asks, "Who is the fairest of all?" To find out, cross out the "L," and then **every other** letter. Write the letters that are left on the lines.

The seven dwarfs have finished work for the day. Do the maze and find the path that will take them home to Snow White.

Poor Cinderella has to do all the chores! Write one letter from each bucket in the space in a word to spell the name of each chore. Cross out each letter as you use it.

The Little Red Hen worked hard. She planted the wheat, ground the flour, and baked the bread. Count the slices and circle the correct number.

While the Little Red Hen worked, her friends were lazy. Trace over each dotted line with different-colored crayons to see how her friends relaxed.

Jack and his mother needed money, so they went to sell their cow. Write the words in the spots in number order to find out what happened.

The giant is angry because Jack stole his goose! Help Jack climb down the beanstalk by coloring in the leaves using a to z order.

This miller told the king a lie to sound important. Unscramble the letters in each bale of hay to spell what the man said his daughter could do with hay.

Q T L O D K R S H K S R J H M

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Help the queen guess the little man's name. In each box, write the letter that comes next. When you are done, you will know who he is.

The gingerbread man was so fast, no one could catch him!
Draw a line from the speedy cookie to the shadow that matches him.

A fox offered to give the gingerbread man a ride across the river. He foolishly sat on the fox's nose. In one snap, the clever fox ate the gingerbread man! He was delicious!

Read the little story. Then write each underlined word from the story where it belongs in the puzzle. HINT: Start with "river."

Sleeping Beauty has fallen under a spell. Count the Z's above her head and write the number inside Beauty's necklace.

Sleeping Beauty slept for many years. A prince found her and gave her this to wake her up. Use the lip code for the answer.

Draw... 1 apple
3 cupcakes
and 5 cookies

Follow the directions to fill this basket with goodies. When you're done, Little Red Riding Hood will bring them to Grandma.

The wolf has dressed like Grandma to fool Little Red Riding Hood. Circle 6 things in the top picture that are not in the bottom one.

The Three Little Pigs found a place where they were safe from the Big Bad Wolf. Connect the dots to see where they stayed.

Once there was an ugly little duckling who looked different from his brothers and sisters. They all looked the same. Circle this special little bird.

Find the color that matches each number and use crayons, colored pencils, or markers to see what the ugly duckling grew up to be.

Hansel and Gretel found a house made of candy in the woods. Count each type of candy and write the number at the bottom.

Oh, no! Hansel and Gretel learned that the candy house belongs to a witch! Draw the other half of her face in the window.

The Three Billy Goats Gruff had to cross a bridge to get to the mountains. Spell as many new words as you can using the words on the sign.

One of these trolls will try to stop the goats from crossing the bridge. Use the clues to discover which troll it is. Draw a box around him.

She tasted
their...

She sat in
their...

She slept in
their...

Draw a line from each group of words to the group of pictures that make sense to find out what Goldilocks did while the Three Bears were away.

Goldilocks liked Baby Bear's things the best. Start with the outline and then add details to Baby Bear to see a picture of him in the frame.

The Beast lives in this fairy tale castle. Find the color that matches each shape, and then color the picture of the magical castle.

The Beast looked awful
Yet Beauty _____,
Inside of his heart
Much goodness _____.
He learned to be kind
Generous and _____,
And turned into a prince
She was happy to _____.

knew

meet

sweet

grew

Use the words next to the rose to finish the poem. Try each word and write the one that makes sense.

Connect the dots to see what the wicked witch used to lock Rapunzel in a tall tower.

Rapunzel is trapped in the tower! Starting at the arrow, look for spelled-out words that tell how the prince reached her. The first one is done for you.

Geppetto and Pinocchio were swallowed by a whale. They built a fire. Write the word **smoke** in the boxes, top to bottom, and read what the whale did.

Brave Pinocchio became a real boy, just as the fairy promised. Count how many times he shouted “Hurrah” and write the number on his hat.

The Little Mermaid lives deep in the sea, where she plays games with her underwater friends. Count each group and circle the right number.

Cross out every **j**, **n**, and **v**. The letters that are left spell out what the Mermaid did for the prince, who was in danger of drowning.

It's nearly bedtime! Help the princess find the right path to get to the top of all those mattresses!

The princess didn't sleep well at all. Add and subtract the numbers to find out how many peas made the mattresses so bumpy.

Read the clues to find out which frog will turn into a prince. When you know the answer, draw a crown on that frog's head.

The frog prince needs to find the princess's golden ball. Show him the way to the bottom of the well, where he can reach the ball.

What does this group of animals want to be when they get to the town of Bremen? Use the musical code to find out! Match each letter to a note.

These tired friends are almost at Bremen. Lead them through the path to the house at the center, where they'll scare away some robbers!

Two tailors stole some things while they were making an “invisible suit” for the Emperor. Look up, down, across, and diagonally and circle the words.

Everyone praised the Emperor's "invisible suit" because they didn't want to tell the truth. Write the letter that begins each word to describe the Emperor.

The Pied Piper was hired to get rid of a town's rats. Finish each drawing of a pesky rat so that it matches the one at the top.

The Pied Piper's pipes look the same, but his magical one will lead the children out of Hamelin. Draw a circle around this special pipe.

Connect the dots, starting with the capital A. When you are done, you will see Puss in Boots and read a description of him.

Puss in Boots tricked an ogre—a dreadful monster—into turning himself into different animals. Write these words from the fairy tale in the puzzle.

Fox and Hound like to go exploring together. Find and color these things they have hidden: pencil, cup, fish, mitten, bird, and heart.

The hunt is on! Find out who Hound is supposed to track down. Starting at the bugle, write only the capital letters, in order, in the blanks.

Use the shape code at the top to spell out what the Three Little Pigs will use to build their houses.

Cinderella and the prince are enjoying their dance together. Count the number of musical notes and then circle the glass slipper that has that number.
